

Boomerang

Eric Saade

I think I need rehab
from you cuz' you are addictive.
Slowly you're breaking me down
So I'm done with the tripping.
You're bad for my heart you are wearing it out
But I could never predict it.
You don't care what I say
you keep poisoning me.

She's the baddest I know the hottest in town.
Didn't know when I seduced her.
I'd be feeling for more cuz' baby I drowned
I guess I'm right back to the future.
I battle your love
every day,
you're like a drug
with a smile on your face.
When I wake up
you're gone with no trace
Now I messed up
like a hangover babe.
Said that I'll never come back again,
but now I'm right back like a boomerang.

Biting your lips just right
in your Victoria Secrets.
Girl you're a first class flight
but it's a curse you're gifted.
The more I resist, the taste of your kiss.
The more I'm in love with your kisses.
Feels like you're in my veins
It's torturing me.

She's the baddest I know the hottest in town.
Didn't know when I seduced her.
I'd be feeling for more cuz' baby I drowned
I guess I'm right back to the future.
I battle your love
every day,
you're like a drug
with a smile on your face.
When I wake up
you're gone with no trace
Now I messed up
like a hangover babe.
Said that I'll never come back again,
but I'm right back like a boomerang.

I know you're not the one to blame
and I go never want you to change.
I said that I'll never come back again
but I'm right back like a boomerang.

I battle your love
every day,
you're like a drug
with a smile on your face.

When I wake up
you're gone with no trace
Now I messed up
like a hangover babe.

I battle your love
every day,
you're like a drug
with a smile on your face.
When I wake up
you're gone with no trace
Now I messed up
like a hangover babe.

Said that I'll never come back again,
but now I'm right back like a boomerang.

Why would I ever come back again?
But I'm right back like a boomerang.
