

Cover Girl part I

Eric Saade

I'm not the one who's gonna waste your time
More like the one who's gonna blow your mind.
Whenever you're done I'm flying to cloud night, yeah

I'm setting you free you begging for more,
I'm letting you breathe then back to round 4.
No time to go sleep we're back to the floor.
Baby we're born star in head line on the show.

Cover girl you know that after tonight,
you never gonna let me go, never gonna let me go.
Cover girl get on close, I'm changing your life,
never gonna let me go, never gonna let me go
Cuz' there's no place you'd rather be
than lying naked next to me.
Cover girl you know that after tonight,
you never gonna let me go, never gonna let me go go.

Girl you're the one that's gonna like my fuse.
The freak freakis one about I saw about you.
Girl when I'm done I'll leave you all confused.

I'm setting you free you begging for more,
I'm letting you breathe, then back to round 4.
No time to go sleep we're back to the floor.
Baby we're born star in head light on the show.

Cover girl you know that after tonight,
you never gonna let me go, never gonna let me go.
Cover girl get on close, I'm changing your life,
never gonna let me go, never gonna let me go
Cuz' there's no place you'd rather be
than lying naked next to me.
Cover girl you know that after tonight,
you never gonna let me go, never gonna let me go.

Girl we only got right here,
right now so let's make this moment bold.
Girl you want it forever, forever, forever

Cover girl you know that after tonight,
you never gonna let me go, never gonna let me go.
Cover girl get on close, I'm changing your life,
never gonna let me go, never gonna let me go
Cuz' there's no place you'd rather be
than lying naked next to me.
Cover girl you know that after tonight,
you never gonna let me go, never gonna let me go go.

Baby and I, what's it gonna be,
Baby and I, what's it gonna be,
Baby and I, what's it gonna be,
it gonna be, it gonna be,
Baby and I, what's it gonna be,
Baby and I, what's it gonna be,
Baby and I, what's it gonna be,
it gonna be, it gonna be,

Baby and I, what's it gonna be,
Baby and I, what's it gonna be,
Baby and I, what's it gonna be,
it gonna be, it gonna be,
Baby and I, what's it gonna be,
Baby and I, what's it gonna be,
Baby and I, what's it gonna be,
it gonna be, it gonna be
