

# Forgive Me

Eric Saade

We started off so amazing  
to say it was love is really underrated  
So were alone, guess I faded  
Treated you wrong and I hate it  
Behaviour so bad I guess that I was jaded  
So sorry my lady

I can't take another damn day  
Sorry that I'm out of your way  
Hope your happy now  
no matter what, I'll never erase your face

We were ment to be and you should know  
I regret the day I let you go for real  
its no where that I should be than beside you  
Love is hard to find, but worth to keep  
Guess that I was falling into deep to see  
I took you for granted

And so I ask you to forgive me, forgive me,  
forgive me, forgive me, forgive me  
I-I, forgive me, forgive me, na-na-na-na  
(2x)

You spend all your time with him lately  
Don't mean to be all up in your business baby  
I'm already gone but I'm waiting  
(You are coming back around)  
Feels like I'm caught up in the matrix  
Sweated all night driving my pillow crazy  
How can I face it  
(you won't come back)

I can't take another damn day  
Sorry that I'm out of your way  
Hope your happy now  
no matter what, I'll never erase your face

We were ment to be and you should know  
I regret the day I let you go for real  
its no where that I should be than beside you  
Love is hard to find, but worth to keep  
Guess that I was falling into deep to see  
I took you for granted

And so I ask you to forgive me, forgive me,  
forgive me, forgive me, forgive me  
I-I, forgive me, forgive me, na-na-na-na  
(2x)

Can't believe I let you walk away  
Now there is only shade for me  
Only shade for me  
Lost your love and this what I became  
I put the blame on me  
All the blame on me

And so I ask you to forgive me, forgive me,  
forgive me, forgive me, forgive me  
I-I, forgive me, forgive me, na-na-na-na  
(4x)

Forgive me, forgive me, uh oh oh,  
Forgive me, forgive me, forgive me, uh oh
