

Hotter than fire

Eric Saade

I'm dressing up for tonight, don't need no list no invite
I'm here to dance, dance, da-da-dance, dance
We headed straight to the bar,
One drink became many more
We here to dance, dance, da-da-dance, dance
Moving, moving I feel the vibe is getting loud yeah
Moving, moving, and now the club is overcrowded
And at the top of the night,
I caught her right in my sight
I took a chance, chance

She's cooler than ice
Flyer than wind
Hotter than fire

This is the night
I'm burnin' within
She's hotter than fire

I say I'm flammable I'm TNT
Light it up

She's hotter than fire

I say I'm flammable I'm TNT
Light it up

She's hotter than fire

She rocks that outfit for me
Red dress H-O-T indeed
So I advance-vance, advance-vance
Her silhouette triggers death
She's got me catching my breath
She's so advance-vanced, advance-vanced

Moving, moving I feel the vibe is getting loud yeah
Moving, moving, we're meant to be, no doubt about it
And at the end of the night,
I'm leaving right by her side
I took a chance, chance

She's cooler than ice
Flyer than wind
Hotter than fire

This is the night
I'm burnin' within
She's hotter than fire

I say I'm flammable I'm TNT
Light it up

She's hotter than fire

I say I'm flammable I'm TNT
Light it up

She's hotter than fire

I said I'm TNT
But I'm not gonna bounce your seat
They try but can't compete
Cause I'm complete
I said I'm TNT
But I'm not gonna bounce your seat
They try but can't compete
Cause I'm complete

She's cooler than ice
Flyer than wind
Hotter than fire

This is the night
I'm burnin' within
She's hotter than fire

I say I'm flammable I'm TNT
Light it up

She's hotter than fire

I say I'm flammable I'm TNT
Light it up

She's hotter than fire
