

Stupid With You

Eric Saade

I might trip, like a geek
I can't help but stumble when you speak
I might slip
I'll go weak
I can't help but fumble when we meet

You amaze me
Everytime that I'm acting crazy
'Cause butterflies and tingles invade me
I'll try to be myself tonight, yeah

I can't seem to talk right
I can't seem to walk right
I keep doing stupid little things
You cripple my brain, babe
By being amazing
I keep doing stupid little things
I'm stupid with you
You raise my heartbeat when you smile
I'm stupid with you
You raise my heartbeat everytime
I'm stupid with you, you, you
I'm stupid with you, you, you
I'm stupid with you, you, you
I'm stupid with you, you, you

I'm a mess
I'm afraid
But you keep popping bubbles inside me
I confess, it's okay
I kind of like this clumsy game we play

You amaze me
The reason why I'm acting so crazy
'Cause butterflies and tingles invade me
I will be myself tonight, tonight

I can't seem to talk right
I can't seem to walk right
I keep doing stupid little things
You cripple my brain, babe
By being amazing
I keep doing stupid little things
I'm stupid with you
You raise my heartbeat when you smile
I'm stupid with you
You raise my heartbeat everytime
I'm stupid with you, you, you
I'm stupid with you, you, you
I'm stupid with you, you, you
I'm stupid with you, you, you

I might trip, like a geek
I can't help but stumble when you speak

I can't seem to talk right
I can't seem to walk right

I keep doing stupid little things
You cripple my brain, babe
By being amazing
I keep doing stupid little things
I'm stupid with you
You raise my heartbeat when you smile
I'm stupid with you
You raise my heartbeat everytime
I'm stupid with you, you, you
I'm stupid with you, you, you
I'm stupid with you, you, you
I'm stupid with you, you, you
I'm stupid with you, you, you
I'm stupid with you, you, you
