

# Till I Break

Eric Saade

Since you're gone,  
I can't seem to sleep anymore  
Cause everything that I did was wrong  
Remember how you told me to go, to go  
You cried, my pride, didn't know what to do  
One time, one lie, baby I was confused  
So done, but still I always act like I'm strong  
Like I'm strong

I just smile like I'm, over you, over you  
I still act like I'm over you, over you  
So I push it, push it, push it, back down, back down  
When I push it, push it, the feeling's right out  
Baby I keep smiling like I'm over you,  
I hide till I break, break, till I break  
I hide till I break, break, till I break  
I hide till I break, break, till I break  
I hide till I break, break, till I break

Wide awake, can't stop going through my mistake  
Wishing I could rewind and change  
Everything that I caused you baby, you babe  
Baby you cried, my pride, didn't know what to do  
One time, one lie, baby I was confused  
So done, but still I always act like I'm strong  
Like I'm strong

I just smile like I'm, over you, over you  
I still act like I'm over you, over you  
So I push it, push it, push it, back down, back down  
When I push it, push it, the feeling's right out  
Baby I keep smiling like I'm over you,  
I hide till I break, break, till I break  
I hide till I break, break, till I break

I hide it cause you break me down  
There's no other way, I know it's too late  
Hide it cause you break me down  
There's no other way, I know it's too late

I just smile like I'm, over you, over you  
I still act like I'm over you, over you  
So I push it, push it, push it, back down, back down  
When I push it, push it, the feeling's right out  
Baby I keep smiling like I'm over you,  
I hide till I break, break, till I break  
I hide till I break, break, till I break.
