

# Without You I'm Nothing

Eric Saade

Never feared to turn around  
And I never feared you'd say goodbye  
You're the center of my life  
And the core to why I sacrifice  
I travel miles for you and I  
To see your smile  
It all reminds  
The memories painting  
A gallery in my mind

A fighter keep fighting  
You gave me the reason  
You light up my silence  
No matter the season  
Winter cold  
Summer, fall  
Not alone, not at all  
Without you I'm nothing  
Without you I'm nothing

Had me blinded from the go  
Everytime I feel I suffocate  
Pull me up from down below  
And accept me for my flaws and mistakes

You travel miles for you and I  
To see me smile  
It all reminds  
The memories painting  
A gallery in my mind

A fighter keep fighting  
You gave me the reason  
You light up my silence  
No matter the season  
Winter cold  
Summer, fall  
Not alone, not at all  
Without you I'm nothing  
Without you I'm nothing

Na-na-na-a  
Na-na-na-a  
Na-na-na-a  
Na-na-na-a

Will it be forever, you and I  
Can I see the day we'll say goodbye  
Never undo what I've been through  
'Cause I know  
Happily ever after is a myth  
To have you in my life is such a gift  
We took the risk

A fighter keep fighting  
You gave me the reason  
You light up my silence

No matter the season  
Winter cold  
Summer, fall  
Not alone, not at all  
Without you I'm nothing  
Without you I'm nothing

A fighter keep fighting  
You gave me the reason  
You light up my silence  
No matter the season  
Winter cold  
Summer, fall  
Not alone, not at all  
Without you I'm nothing  
Without you I'm nothing

Na-na-na-a  
Na-na-na-a  
Na-na-na-a  
Na-na-na-a  
Nothing, nothing  
Na-na-na-a  
Na-na-na-a
