

# Elevator

Erin McCarley

Rewind  
To the scene where we lost it  
To the birds and the bees

We got caught up in a corner  
Of a mouse trap  
One's summer eve

Our highs win  
A 5 star trophy for love  
We're all the right things

Lace lies  
Underneath the yellow clock  
And the fox outside sings a lullaby

Spot light  
Steaming up the silver room  
And it's safe to assume it won't stop

Up  
My elevator goes up  
I think you found your way

Green light  
Cover the air when you tell me  
That you love me, I see

Fire flies  
Kaleidoscopes and time's running out  
Before the shake, shake

Please, please  
Don't let me be a waste  
Can I taste the peanuts in your pocket?

Up  
My elevator goes up  
I think you found your way

Uh oh  
I'd really like to show  
Just how high this could go

I'll let you  
Look a little  
Look a little  
Closer now

Just let me tell you how  
I like the shock that I get  
When you go

Switch the lights  
My stadium's electric  
Top flyin' off with this inauguration

Dancin' down to the Paradise City  
Hills are alive  
The rivers running over

Talk to me  
I like to hear the pictures  
That you take when your mind's  
Off we go

Up  
My elevator goes up  
I think you found your way

Van Gogh's  
Dancing on the wall  
And sunflowers fall  
Yellow all around

You're painting  
All of my numbers  
And I start to feel another  
Shake, shake

Up  
My elevator goes up  
I think you found your way  
Up  
My elevator goes up  
I think you found your way

Up  
My elevator goes up  
I think you found your way  
Up  
My elevator goes up  
I think you found your way
