

I'll Always Be Glad To Take You Back

Ernest Tubb

After you have finished all your runnin' round and you find a card against your stack
After you are weary and so sick inside I'll always be glad to take you back
After life has taught you dear who really cares after all the rest is through with you
Just give me a ring and you will find me there waiting as I've always done for you
Though they tell me that you have straight dear
That you're traveling on that other track
But after all they just don't really know you I'll always be glad to take you back
After it's all over and yourself you'll find even though there's silver in your hair
You can bet the world that I won't let you down if you'll only say that you still care
I just can't believe that you stopped loving me I feel it deep within this heart of mine
I'm praying for the day that you'll come back to me it's up to you I'm willing anytime
Though they tell me...
