

# I Wonder Why I Worry Over You

Ernest Tubb

Dear you're not worth to what it takes to mention your name  
I wonder why I worry over you  
The way you kicked my love around is such a crime and shame  
I wonder why I worry over you  
Friends with good intentions all tell me to get smart  
And run away this very day before you break my heart  
You'll never change your wicked ways you'll always be the same  
I wonder why I worry over you  
Even when you know you're wrong I still get the blame  
I wonder why I worry over you  
If there's an art in breakin' hearts you could start a hall of  
fame  
I wonder why I worry over you  
If I walk out tomorrow it wouldn't bother you  
You've got another waitin' now to see just what I do  
And you're not worth to what it takes to mention your name  
I wonder why I worry over you
