

## Last Night I Dreamed

Ernest Tubb

I had a dream last night I dreamed you held me tight  
You filled me with delight so real it seemed  
I thought you kissed me too it thrilled me through and through  
Just being there with you last night I dreamed  
And then there came the dawning when I awoke you were gone  
I can't forget you my darling my love for you still lingers on  
So please come on home although you were wrong  
I just can't go on last night I dreamed  
And then there came the dawning...
