

No Matter What Happens My Darling

Ernest Tubb

Now the fate takes us both to the crossroads it seems that we t
wo have to part
No matter what happens my darling you'll always be close to my
heart
If troubles and cares overtake you whatever your sorrows may be
No matter what happens my darling I want you to please call on
me
I'll always be ready to guide you if destiny leads you astray
No matter what happens my darling my heart's with you each nigh
t and day
So remember that you're always with me in mem'ry you'll be by m
y side
No matter what happens my darling you'll still be my true love
and bride
