## **No Matter What Happens My Darling**

## **Ernest Tubb**

Now the fate takes us both to the crossroads it seems that we t wo have to part

No matter what happenes my darling you'll always be close to my heart

If troubles and cares overtake you whatever your sorrows may be No matter what happens my darling I want you to please call on me

I'll always be ready to guide you if destiny leads you astray No matter what happens my darling my heart's with you each night and day

So remember that you're always with me in mem'ry you'll be by m v side

No matter what happens my darling you'll still be my true love and bride
