

She's A Little Bit Country

Ernest Tubb

She's a big city girl in so many ways
She walks and she talks up town
But she's got something hard to find
Nowadays that keeps me hangin' around

She's a little bit country
Makes me think of meadows and clover
Apple pie and a pup named Rover
And the good ole days

Lordy, she don't know what cheatin' means
I ain't a gonna teach her them kind of things
She's a little bit country and I've got country ways

Well I've been all around this troubled old world
But I never found peace of mind
Till I met that pretty little city girl
Lord, they oughta make more of her kind

She's a little bit country
Makes me think of meadows and clover
Apple pie and a pup named Rover
And the good ole days

Lordy, she don't know what cheatin' means
I ain't a gonna teach her none of them things
She's a little bit country and I've got country ways
She's a little bit country and I like her country ways
