

Undiscovered entities.
Thoughts of inconceivable beings.
Universal catastrophe.
They're relatives to you and me.
Space and time.
Emptiness lightyears wide.

To discover the reasons why, we'd reevaluate all our lives.

Happenings that can't be explained.
The crawling inside your brain.
Unknown toxins in every vein.
Exo-galactic. Planetary sabbatical.
Their design is tactical. Surviving is impractical.

Our inferior intelligence versus calculating assailants. Ancient times of negligence. Eradication of our existence.

Our races are being tamed.
Undiscovered entities.
Thoughts of inconceivable beings.

Creatures that became our masters.
Worlds fused from disaster.
Realizations too late to matter.
The descent of man begins the pattern.
