## **My Life**

**Erykah Badu** 

I was standing downtown, downtown Staring at the pebbles on the ground Tryin to figure out a way up out of this town And I know yeah, I'm not the only one So many people out there chase the sun If you're looking for a free ride, you better run chile Or you sure won't get too far, oh You'd better dance a dance To make the rain come down If you want to be a star, oh my life My Life (Brother you know) Sho ain't been too easy My life (Sister you know) The life I wanna live My life (Mama you know) You're gonna go through changes Mv life No turnin back (I'm tellin' you no) Evernow and then I Wanna to throw my hands up in the sky Cause one day I know I'll be flyin high And I know yeah I got to get down On my knees and pray Cause in heart I know I'll see that day When my freedom comes along I'm gonna run chile Cause I know that I'll go far oh, oh Can't let nobody kill my soul and bring me down And they know who they are, oh my life My Life (Brother you know) Sho ain't been too easy My life (Sister you know) The life I wanna live My life (Mama you know) You're gonna go through changes My life No turnin back (I'm tellin' you no) My Life (Brother you know) Sho ain't been too easy My life (Sister you know) The life I wanna live

My life (Mama you know) You're gonna go through changes My life No turnin back (I'm tellin' you no)

No turning back Yeah oh baby No turning back Yeah oh No turning back Yeah oh baby No turning back Yeah No turning back...
