

## Alive

## Escape the Fate

Locked up I'm held so tight  
This place is dark and dirty  
I've been here too many times  
My private purgatory  
Cry out but no one answers  
Silence consumes my mind  
Another morning after a truth I can't deny  
(A truth I can't deny)

When the stars are falling  
And worlds collide  
You feel like you won't survive  
I'm bruised and broken  
But I'm hanging on  
As long as I am alive

You say I'm so deluded  
You say that I am blind  
You say that I will never seek nor will I find  
I say you'll never know me  
You are no friend of mine  
I'm gonna fuck you up and set your world on fire

When the stars are falling  
And worlds collide  
And you feel like you won't survive  
I'm bruised and broken  
But I'm hanging on  
As long as I am alive

Stars are falling  
And worlds collide  
And you feel like you won't survive  
I'm bruised and broken  
But I'm hanging on  
As long as I am alive

When the stars are falling  
And worlds collide  
You feel like you won't survive  
(feel like you won't survive)  
I'm bruised and broken  
But I'm hanging on  
As long as I am alive
