

# Risk It All

## Escape the Fate

They said  
Say a prayer for the sinners  
Say a prayer for the other side  
Head down do what you're told  
Shut your mouth, believe the lies

They were wrong  
They didn't know my name  
They were wrong  
I put 'em all to shame

I'm the one that took a chance  
I'm the one that took a leap of faith, oh  
When no one else believed in me  
I stood my ground, yea I found my place  
So now they run run run, they just run run run  
Like animals outta the cage, oh  
Sometimes you just gotta stand on the edge  
Sometimes you gotta risk it all  
Let's risk it all

Yeah!

Don't waste your time with an attitude  
Don't hold back, just let it scream  
You're the one with the light inside  
They're the ones who have the disease oh,

They were wrong  
They didn't know my name  
They were wrong  
I put 'em all to shame

I'm the one who took a chance  
I'm the one that took a leap of faith, oh  
When no one else believed in me  
I stood my ground, yea I found my place  
So now they run run run, they just run run run  
Like animals outta the cage, oh  
Sometimes you just gotta stand on the edge  
Sometimes you gotta risk it all  
Let's risk it all

Yeah!

(Solo)

Don't bare your cross like an anchor  
You will never rise, never stand up, oh  
Don't bare your cross like an anchor  
You will never rise, never stand up

Oh woah (4x)  
Yeah, yeah!

I'm the one that took a chance  
I'm the one that took a leap of faith, oh

When no one else believed in me  
I stood my ground, yea I found my place  
So now they run run run, they just run run run  
Like animals outta the cage, oh  
Sometimes you just gotta stand on the edge  
Sometimes you gotta risk it all  
Let's risk it all  
Let's risk it all
