

# Disgrace

Eskimo Joe

Disgrace, disgrace, I knew that I would find this place  
Just like my father and his father before him  
I don't know if I'll sink or swim  
Disgrace, disgrace, lead me further down the path into this place  
Like you do

And if I turn my back on you  
In a private conversation, you don't always have to listen  
To every word of spoken truth, lead me further down the path  
I know that I am sinking fast into disgrace

And please give me second place, and I will try and save some face  
Just like my brother and his father before him  
I'll fight the urge to run again  
From this place  
This place

And if I turn my back on you  
In a private conversation, you don't always have to listen  
To every word of spoken truth, lead me further down the path  
I know that I am sinking fast into disgrace

Lead me further down the path into this place  
I always knew that this would be my fate  
Lead me further down the path into disgrace,  
Disgrace
