

# Honeymoon

Eskimo Joe

It's you and me  
On our honeymoon  
It's you and me  
On our honeymoon

I know I sat, and now the water's coming in  
To keep this boat afloat you have to accept it and not be sinking

It's you and me  
On our honeymoon  
It's you and me  
On our honeymoon

Now you wake me up just to tell me you're dreaming of lovers  
How sweet to feel the memories

I knew, that you'd turn out all the lights  
I knew, like the girl with the bitter heart

No one here is fine on their own  
Just running around in the dark  
No one here is fine on their own  
So just forget about it all,  
Forget about it all

On our honeymoon  
It's you and me  
On our honeymoon  
It's you and me  
On our honeymoon

At night I'll sober up just to tell you I'm dreaming of others  
But the moon comes up like a remedy

I knew, that you'd get up out the chair  
I knew, like the girl who was never there

No one here is fine on their own  
Just running around in the dark  
No one here is fine on their own  
So just forget about it all,  
Forget about it all

On our honeymoon  
Oh..

Have you ever just stared at the moon  
My blood boils and I'll be turning soon  
I play my violin as I watch it burn  
Oh..

On our honeymoon
