

Keep It Coming

Eskimo Joe

Gone are the days you'd lead me on with serenades
Of just how good it could be then leave me hanging on in between
But that got old, and now you're leaving me cold
I need to come unstuck, it's like I need it too much
So baby have you got enough to

Keep it coming?
How can you just start me up?
And then you leave me nothing,
Is that all you got 'cause I really wanna believe in something
So keep it coming

Show me the way and we could both just slip away
And get messed up in the sun, you leave me hanging on to my gun
But that got old, and now you're leaving me cold
I need to come unstuck, it's like I need it too much
So baby have you got enough to

Keep it coming
How can you just start me up?
And then you leave me nothing
Is that all you got cause I really wanna believe in something
So keep it coming

Baby have you got enough to

Keep it coming
How can you just start me up?
And then you leave me nothing
Is that all you got cause I really wanna believe in something
How can you just start me up?
And then you leave me nothing
So keep it coming
