

Life Is Better With You

Eskimo Joe

Hey, whatever happened
To you last night?
We thought we lost you there

Those long days
And long, long nights
They keep you up inside

Stay awake all night
Talking about our friends, it never ends
Always do it when we're drunk

I just need kind of meditation
Keep my feet from
Falling off the ground

La, la, la, woah-oh-woah-oh
Life is better with you
La, la, la, woah-oh-woah-oh
Life is better with you

Oooh yeah

See the people on the street
Hear the sound of their feet

It just seems to me
There's not too many people
It makes the world we love, seem grey

La, la, la, woah-oh-woah-oh
Life is better with you
La, la, la, woah-oh-woah-oh
Life is better with you

Oooh yeah

Happens all the time
People pass you by
Like everyone you know
They are changing through and through

You really did not think it would last
But that's all in the past

La, la, la, woah-oh-woah-oh
Life is better with you
La, la, la, woah-oh-woah-oh
Life is better with you

See the people on the street
Hear the sound of their feet
Like everybody that you know
Is setting out, want you to go

(Life is better with you
La, la, la, woah-oh-woah-oh

Life is better with you
La, la, la, woah-oh-woah-oh
Life is better with you
La, la, la, woah-oh-woah-oh
Life is better with you
La, la, la, woah-oh-woah-oh
Life is better with you)
