

# Not Alone

Eskimo Joe

Into the night I saw you walking on the edge of a knife  
So satisfied I caught you crawling on your hands in the fire

I wanna rise like the sun but you set like the moon  
Your eyes were crazy when you walked into the room  
Hide from the high, fade into the blue  
Well don't give up so soon

You don't have to walk away for nothing  
You know that you're not the only one  
You could be an ocean all around us or you could be an island  
On your own

You don't need a light, I heard you calling through the smoke and the  
glass  
Some satellite, I see you climbing but you're falling fast

I wanna rise like the sun but you set like the moon  
Your eyes were crazy when you walked into the room  
Hide from the high, fade into the blue  
Well don't give up so soon

You don't have to walk away for nothing  
You know that you're not the only one  
You could be an ocean all around us or you could be an island  
On your own

But you know you're not alone

Just pick it up, don't let it go  
We'll never stop, now feel the low  
We keep believing it's alright  
We'll chase the high into the dawn  
We'll feel the light come through the walls  
We keep believing it's alright

You don't have to walk away for nothing  
You know that you're not the only one  
You could be an ocean all around us or you could be an island  
On your own

You don't have to walk away for nothing  
You know that you're not the only one  
You could be an ocean all around us or you could be an island  
On your own

But you know you're not alone  
But you know you're not alone  
But you know you're not alone
