

# This Is Pressure

Eskimo Joe

This is pressure  
Stay away from me  
If life is bigger, then what do you see  
You're no better, no better than me  
If this is pressure, show me  
How you bleed

There is no romance in suffocation  
The walls fall down like your expectations  
You want to scream and you want to shout  
But you've built up steam you can't let out  
This is pressure

No you won't see me  
Just ask your brother what he now believes  
You're no better, no better than me  
If this is pressure  
Tell me what do you see

There is no romance in suffocation  
The words fall out, like you're out of patience  
You want to scream and you want to shout  
But you've built up steam you can't let out  
This is pressure

Pressure Now

Pressure come on down

There is no romance in suffocation  
The walls fall down like your expectations  
You want to scream and you want to shout  
But you've built up steam you can't let out  
There is no romance in suffocation

The words fall out like your out of patience  
You want to scream and you want to shout  
But you can't let out, no you can't let out  
This is pressure  
This is pressure  
This is pressure  
So this is pressure
