

# Bigger Than The World

Esmée Denters

I think my heart might explode  
Cause now I feel the weight  
Of your love on me now  
From my head down to my toes  
And I can't handle nothin' else

I'm staring at the mirror at these clothes  
And it's funny, they mean about as much as yesterday  
Something is calling me home, me home  
I can hear your voice and I'm not afraid

Now I know I'm just a girl  
Trying to make my way through this life  
But now I feel bigger than the world  
With your hand in mine

Like a speeding bullet  
Trying to make my way back through the night  
And now I feel bigger than the world  
With your hand in mine

Boy, I'll take care of the storm  
Lets sneek right pass the cloud up where it's warm  
I can handle the people  
They're just pebbles on a long, long road

Staring at the sky, at those stars  
And it's funny, they seem about as far as tomorrow  
Something is calling me home, me home  
And I'm not afraid

Cause I can see everything from high above  
The earth is a little place next to my love  
I can reach from here to where you are  
If you look for me in the sky, I'm not that far

Now I know I'm just a girl  
Trying to make my way through this life  
But now I feel bigger than the world  
With your hand in mine

Like a speeding bullet  
Trying to make my way back through the night  
And now I feel bigger than the world  
With your hand in mine

And Now I feel bigger than the trees  
That hold the leaves  
Bigger than the mountains  
That touch the seas  
Bigger than the night  
That leads to day  
Bigger than the waves  
That crash at bay

Bigger oh ooh, bigger oh ooh  
Bigger oh ooh, oh oh ooh

Bigger-er--er ooooooh

When all of the world seems to get you down  
Just know that I'm always gonna be around  
My heart's in my head and that's where it'll stay  
I love you too much, just like I did today

Now I know I'm just a girl (girl)  
Trying to make my way through this life  
(trying to make it through this life)  
But now I feel bigger than the world  
(bigger than the world, bigger than the world)  
With your hand in mine  
(hand in mine)

Like a speeding bullet  
(Oh-ooh oh-oh bigger)  
(Oh-ooh oh-oh bigger)  
Trying to make my way back through the night  
And now I feel bigger than the world (ooh)  
With your hand in mine

Now I know I'm just a girl  
Trying to make my way through this life  
But now I feel bigger than the world  
With your hand in mine

Like a speeding bullet  
Trying to make my way back through the night  
And now I feel bigger than the world  
With your hand in mine
