

# Eyes For You

Esmée Denters

Some say it's better to have loved then lost  
But I don't know the feeling at all  
And baby it's mostly your fault  
Ever since you put a move on my heart

And I can't see the world around me  
I only see what we created  
And I don't know whats behind me  
I only look forward to how we make it

[Chorus]  
Are the stars out tonight  
Is it cloudy or bright  
I only have eyes for you [2x]  
Does the moon seem far away  
If it is I cant say  
I only have eyes for you [2x]

Boy I wanna be were you are  
I wanna wrap my arms around you  
It's not like I'm tryna go too far  
It's just that I wanna surround you

And I cant tell if its night or day  
'Cuz everything is brightened by your smile  
Don't know if I have the right of way  
'Cuz my focus races a thousand miles.  
Baby boy you're just too much  
I wanna give you all of my love  
I get a rush just by your touch,  
You're all that I've been thinkin' of

[Chorus]  
Are the stars out tonight  
Is it cloudy or bright  
I only have eyes for you [2x]  
Does the moon seem far away  
If it is I cant say  
I only have eyes for you [2x]

You're the only one  
Boy nobody compares to you  
Boy your all that I want  
Not a day goes by without me thinkin' bout you  
Even if the world came crumblin' down  
No I wouldn't even know it at all  
Even if the city blacked out right now  
Baby you're still my shining star

[Chorus 2x]  
Are the stars out tonight  
Is it cloudy or bright  
I only have eyes for you [2x]  
Does the moon seem far away  
If it is I cant say  
I only have eyes for you [2x]

Hey I only got my eyes on you..
