

Pushing Providence

Esoterica

So full of yourself though you have gotten no proof

So sure you're safe there you in your lights with your children
Watch your little angels sleep

I won't live this
I can't live this life

And any other way
I'm dead
And any other way

So sure you're part of something greater
And your perfect creator needs you

I won't live this
I can't live this life

And any other way
I'm dead
And any other way
I'm You're killing
Keep pushing me
