

# The Fool

Esoterica

Easily do I find my way here  
In the darkness it is clear  
Watching you with my eyes closed dreaming  
Of a time when you were there

And in my mind  
Everything's working out just fine  
And I can't hope to erase

I can't remove your image from my mind  
I feel your presence round me all the time  
And the way I lost the [product] you invite  
I know I hear you're near me all the time

Silently do I watch you sleeping  
Wishing that you could be near  
Carefully do I slow my breathing  
I forget that no-one's here

And in my mind  
Everything's working out just fine  
And I can't hope to erase

I can't remove your image from my mind  
I feel your presence round me all the time  
And the way [they lost the product you invite]  
I know I hear you're near me all the time

And in my mind  
I'm [doing]

I can't remove your image from my mind  
I feel your presence round me all the time  
And the way [they lost the product you invite]  
I know I hear you're near me all the time
