

Blast Yer Brain

Espen Lind

You got to scream your
guts out baby
You got to scream and shout
(Or you will blast your brain)

When life isn't just
the way you want it
you got to let it out
Ooh yeah

Nuclear blow
Atomic flow
What a show
Way to go
Run away
Don't you stay
On your way
Gotta pray

Liberty on tv
Let that be your relief
Baby dies
Mama cries
Starving eyes pay the price
FBI
Eye to eye
Never lie or you will fry
CIA
JFK
Dallas day blown away
Satellite race
Shuttle days
Starfight ace killed in space
Take a trip man
Be a flip man
Let it rip man
Love my whip now

You gotta scream your guts out baby
You gotta scream and shout
(Or you will blast your brain)
When life isn't just
the way you want it
you gotta let it out

USA goes astray
day by day in every way
Big disease never cease
kills the east like a beast

Record rates
Wall street mates ignore the fates
Third world states
Bomb a plane over spain
Hide in vain
Claim insane
Sex debate in every state

X-rate what you make
Screw your mate
Fuck his date
Do it if it makes you feel great

I'm a hit
I don't know shit
I'm staying fit by getting it
Don't go to school
Don't be a fool
Just play it cool
Make your own rules

You gotta scream your guts out baby
You gotta scream and shout
(Or you will blast your brain)
When life isn't just
the way you want it
you gotta let it out

Blast no brain
Blast no brain
Blast no brain
Yeah-yeah-yeah

Blast no brain
Blast no brain
Blast no brain
Yeah-yeah-yeah

President
Money spent
Pay the rent
Intelligent sex thrills
sex kills
Elvis lives

What gives
Right or wrong
Weak or strong
Short or long
Off or on
Rich or poor
What's the score
I'm not sure anymore

Big bro
Video
Always know where I go
Coke flows
Money goes
Up my nose
Overdose

My head is void
I can't avoid
Paranoid
Paranoid
So scared inside
No place to hide
Eat cyanide
Get one last ride

You gotta scream your guts out baby
You gotta scream and shout
(Or you will blast your brain)
When life isn't just
the way you want it
you gotta let it out

You gotta scream your guts out baby
You gotta scream and shout
(or you will blast your brain)
When life isn't just
the way you want it
you gotta let it out

You gotta scream your guts out baby
You gotta scream and shout
(Or you will blast your brain)
