Sexy girls all around let's get together to the dj sounds
I love the girls in this crazy town, drinks and other things going down

Don't do drugs, drugs are bad. that's the talk from moms and dad.
Like they never done drugs b4. I done a couple now I'm on the floor
Somebody please hospital, where's my friends I think I lost em all
I'm effed. I think I'm gonna leave.
Don't drink and drive speed kills, just spent my last money on speed pills
Walked into the loo saw 3 girls. I forgot my glasses I can't read well
I'm messed, I think I'm gonna leave.

I'm lean. I'm drunk. please don't try take me for no punk
If you try take me for a punk, u will learn the meaning of (come again) [x2]
Somebody get me a taxi. somebody get me a cab.
Somebody get me a taxi. I wanna go home, I got work in the morning

They say age is nothing a number but I think that that's pretty dumb
Because if age is nothing but a number how come I couldn't get into the club
When I was sixteen, they showed no love.
When I was 18 they still didn't like me
Now I'm 21, still show no love, unless I show them some I.d
Now I'm in the club and the whole scene's lively
Plus going home with a girl, quite likely
And I don't give a toss about the VIP
Cause the best part is going on inside me
Sound at the baseline so excite me
I get so hyped everybody wanna fight me
One last drink will go down nicely
Then I'll leave if I could find my keys.

I'm lean. I'm drunk. please don't try take me for no punk
