

# Smile Like That

Esperanza Spalding

Smile

It's been a while since I've seen that smile

I cannot help but wonder

And it's nothing but natural to wonder if you've ever loved her

I'll be sure when I see that I can make you smile like that

Smile like that

Guess it's something I can't help when I notice the way your eyes focus

On each word and gesture she does that makes you smile like that

Smile like that now, I like that

Your heart is open and you love freely and all but

Not like that, I want us to be two lovely people, not really like three

Now I like that your heart is open and you love freely and all but

Not like that, I want us to be two lovely people

Just two, just me, just you

But I don't really mind if you smile like that

If it's something you can't help, don't worry

But don't pretend you don't see and feel what's obvious to me

Oh but then you smile like that

When you smile like that

If it's something we don't have, it's natural to just leave it

At that so to let you be and maybe find

Someone that makes me smile like that

I wanna smile like that yet I

Still like that your heart is open and you love freely and all so

Stay like that, let's hope that we'll be two lovely people

Or I set you free
