Unreal

Esqarial

I'm the system, I'm the law, I'm corruption, worm in the
core
I'll tell you everything, the best of lies, the Prince of
wounds, the Lord of Flies

No one hears the scream, faceless crawling fear
Dead voices speak through me of all the things they see

Lie back and dream of me, red death to set you free
Black terror stalks the night, I turn the screws to make
you die

You hope it's only a dream, despair – you can't resist
No one knows your name, learn to fight the pain
Wonder – worker, doing death, killing all, friends and
foes
Wonder – worker, from the dream, create evil, it's
nightmare
