

Cold Crush

Estelle

I want you back
I want you back
I know you recognize me
I recognize you too
I heard your reputation
Hope some of it's true (I want you back)
And yes this room is crowded
But they all disappear
Cuz when I look at you
It's like no one's here
Oh I could stand the agreement
Of things that we could do (I want you back)
I'd rather take a chance and spend a night with you

Cold crush
I'm trying to keep my cool
I want you so much (I want you back)
And what we gonna do?
I walk over this way
Say you'll make my day
Why won't you come and kiss me till there's nothing
left to say
Crush

You walk across the room
I see you look at me
Mistake could let you choose that sign
Though this ain't the way, this ain't the rules
I'm not gon' let you slip away
I gotta make a move
I'll send a drink on over (I want you back)
Come meet me by the pool (I want you back)
Oh how'd you feel about a secret rendezvous?
Just for a couple hours (I want you back)
Just sneak and find a room (I want you back)
I promise not to tell what we're about to do

Cold crush
I'm trying to keep my cool

Why won't you come and kiss me till there's nothing

Crush

Is it wrong that I'm so glad you came?
Was I supposed to step to you this way?
I'm so cold not trying to lose my cool
But I get open when I'm next to you
There's my chest
There's your shoes
All our clothes are all across this room
I don't care what happens you can lead the way
Baby stay, make me say uh
