

Gotcha Love

Estelle

True Romance

(Take me girl)

All in my sleep
in my dream
I'm sleeping next to you
You wake up holding me (uh)

Now it ain't a dream (now it ain't a dream)
He's here and I mean
Finally I know how elated feels, and I think

I'm so lucky I got him, got him, 'bout a
Million men took a shot and lost my love
Ain't he lucky he got it
And he got it, yeah he got it, so oh

See whether you're awake or
You're far away from me, remember
That any way you wake up
I, gotcha love
Whenever I'm away or
I'll remember me in your arms
And any way you wake up
I, gotcha love

My heart was on E
Time on I wait a million seconds
Try a million rings, just to feel

How I do now (How I do now)
Let me show you how
Our finger tips entwined
When you press your lips to mine, and I think

Ain't he lucky he got it, 'bout a
Million men took a shot and lost my love
Ain't he lucky he got it
Said he got it, yeah he got it

Ain't we lucky we got it
Ain't we lucky we got it, gotcha love
Ain't we lucky we got it
I, gotcha love

Ain't we lucky we got it
