

# Love Like Ours

Estelle

He's smilin'  
And that's because of me  
He's happy, I want the world to see  
Been living ever happily. yeah  
I'm wonderin, wodnerin honestly

How could you not see that we are in love?  
How could you be talkin' to talk that stuff?  
After all this time, now your feelings tough  
Don't wait on us, on us

Looks like you need a love like ours  
Then you would know how it feels  
Looks like you need a love like ours  
You need some happiness still  
Looks like you need a love like ours  
You need some happiness for real  
Looks like you need a love like ours  
You need some happiness still

You need a love, love like our own, yeah  
A love, love like ours  
You need a love, love like our own, yeah  
Don't need no  
She's smilin' all because of I, yeah  
Yes truly, keeps us smiling, hey  
You know you had your times to love up  
Its not my fault  
They said love is a gamble when you love

How can you not love how the way we live?  
Tryin' to break everything we built  
Can't stop a love so chill  
Don't hate on us

Looks like you need a love like ours  
Then you would know how it feels  
Looks like you need a love like ours  
You need some happiness still  
Looks like you need a love like ours  
You need some happiness for real  
Looks like you need a love like ours (don't hate on us)  
You need some happiness still

You need a love, love like our own, yeah  
A love, love like ours  
You need a love, love like our own, yeah  
My girlfriend better than you

When they can't understand it  
I know they really can't stand it  
She give me lovin' at the mornin' and at the evening  
Anytime you can have it  
Cause you got me feeling alive  
Girl, now we don't have to try  
That's why I love her (that's why I love him)

Looks like you need a love like ours  
Then you would know how it feels  
Looks like you need a love like ours  
You need some happiness still  
Looks like you need a love like ours  
You need some happiness for real  
Looks like you need a love like ours (don't hate on us)  
You need some happiness still

You need a love, love like our own, yeah  
A love, love like ours  
You need a love, love like our own, yeah
