

How You Love It

Ester Dean

How you doin'? How you get it in?
How you keep 'em comin'? Tell me how break 'em in
What's the secret? You keep 'em disciplined
Got them girls walkin' in the cut to get it in

You don't want them callin'?
If you got what they say, I want you to show me
Show me how you touch 'em, show me how you love 'em
How you love 'em, how you-how you love 'em

How you love it, how you love it
How you love it, how you love it, how you love it, yeah
How you love it, how you love it
How you love it, how you love it, how you love it, yeah
Can you do it like this? Can you do it like that?
If you do it like this, then I do it right back
How you love it, how you love it
How you love it, how you love it, how you love it, yeah

How you doin'? How you get it in?
Talkin' ain't gon' do it, I need more than gossipin'
Got you blushin', hit that, recommend me
A old school classic while they followin' a trend

You don't want them callin'?
If you got what they say, I want you to show me
Show me how you touch 'em, show me how you love 'em
How you love 'em, how you-how you love 'em

How you love it, how you love it
How you love it, how you love it, how you love it, yeah
How you love it, how you love it
How you love it, how you love it, how you love it, yeah
Can you do it like this? Can you do it like that?
If you do it like this, then I do it right back
How you love it, how you love it
How you love it, how you love it, how you love it, yeah

See me ride the whip, like a 6-4
Legs up in the air like a Lamborghini door
When I'm done with him, I take him back like a rental
That's the? you could check out my credential
?, Miss Demean, we pop them things
Wanna know what I mean?
That means ching-a-ling, that means green
? up on the scene with a gangster lean and a triple beam
? clean like I spring I be?

How you love it, how you love it
How you love it, how you love it, how you love it, yeah
How you love it, how you love it
How you love it, how you love it, how you love it, yeah
Can you do it like this? Can you do it like that?
If you do it like this, then I do it right back
How you love it, how you love it
How you love it, how you love it, how you love it, yeah

Can you do it like this? Can you do it like that?
If you do it like this, then I do it right back
How you love it, how you love it
How you love it, how you love it, how you love it, yeah
How you doin'? How you get it in?
How you keep 'em comin'? Tell me how break 'em in
