

Stay In My Life

Ester Dean

I don't meet so many
I don't lost so many
Didn't get hurt by somebody
I have hurt somebody
I've been in the cold
But when now I know
You are the one I want
I aint letting go

Cos I feel the love
Yeah I feel your love
And I aint worried bout it
But Kent I'm so in love
Don't know what you are
But It must be love
I hope you staying forever
If they in my life
Aint nobody I wanna see, but you you you
If they in my life
Aint nobody I wanna be with but you you you
It took me a minute
But now I know what I'm talking about
Once I got it, I wanna tell me who worry about it ever
I got you in my life
Locking you in my life
You staying in my life

Yeah
I've played a fool
Yeah I've played a few
But boy in the end
There's no game but you
I was in the rain
When you moved the clouds
Now I aint the same
Wanna stay in your life

Cos I feel the love
Yeah I feel your love
And I aint worried bout it
But Kent I'm so in love
Don't know what you are
But it must be love
I hope you staying forever

If they in my life
Aint nobody I wanna see, but you you you
If they in my life
Aint nobody I wanna be with but you you you
It took me a minute
But now I know what I'm talking about
Once I got it, I wanna tell me who worry about it ever
I got you in my life
Locking you in my life
You staying in my life
