

## Waking Up

Esther Ofarim

Is that the morning light I see,  
shining in on me,  
must be waking up.  
It's been so long  
since I've seen daybreak,  
I must be awake  
again.

I don't wanna sleep through my whole life,  
don't want to lose my soul in the night.  
Just want to sing to the morning light,  
I must be waking up.

The nightbird sings  
and shows his scarlet wings,  
he is waking up,  
hear him waking up!  
Every day he's got a brand new prayer to sing,  
when he's waking up the day.

Don't wanna sleep through his whole life,  
doesn't want to lose his soul in the night.  
Just wanna sing to the morning light,  
he must be waking up.

Is that the morning light I see,  
shining in on me,  
I know we must be waking up.  
It's been so long  
since this old world's seen daybreak,  
we must be awake  
this time.

We don't wanna sleep through our whole lives,  
we don't wanna lose this world in the night.  
We just need to work 'till we get this world right,  
we're waking up
