

Black Mermaid

Esthero

I'm a black mermaid, from the bottom of the sea
I will teach you how to love me, in the greatness I
will lead you.
'cause I'm a black mermaid, nothing weary you will
find,
I'm here for you to love me, I've been here for all the
time.

And I will wait for you to see me and to understand
That a woman can restore the soul love and the broken
men.
If you can look beyond the waves and just believe in me
I am the lighthouse, I'm standing strong, I took the
rocks and say

'cause I'm a black mermaid, from the bottom of the sea,
I will teach you how to love me, into greatness I will
lead you.

And I spend most of my life deep down inside myself
I've dreamt about the possibility of someone else,
Who could see the things I've seen and still wait with
me
To the darkness we could fade, because we know
ourselves.

I'm his black mermaid, from the bottom of the sea
I will teach you how to love me, into greatness I will
lead you.
I'm a black mermaid, from the bottom of the sea
I will teach you how to love me, in the greatness I
will lead you.

And I spend most of my life deep down inside myself
I've dreamt about the possibility of someone else,
Who could see the things I've seen and still wait with
me
To the darkness we could fade, because we know
ourselves.

And I'm his black mermaid, he thinks I'm beautiful.
Yeah, I'm his black mermaid, he thinks I'm beautiful.
I am beautiful.

All the dark horses, all the good men
Won't you come with me, be together again?
All the dark horses, all the good men
Won't you come with me, be together again?
All the dark horses, all the good men
Won't you come with me, be together again?
All the dark horses, all the good men
Won't you come with me, be together again?

I am beautiful, I am beautiful, I am beautiful.
