

Song For Holly

Esthero

I can make you want me
I can make you think you need me too...
I can reassure you that all your lies you tell yourself are true...
e...

And if you won't let me go
I'm just harder to hold, no
I'll never let you gain control, no, no...

I'm not myself lately
I'm not even sure i know me
But i'm worth more than my name
And all the lies i tell myself are true...

You can try but it's never enough with you behind me
Because when push comes to shove, i fall
And it's my turn to handle myself now

And if you won't let me go
I'm just harder to hold, no
I'll never let you gain control... and you can say you want me.
..

And if you won't let me go
I'm just harder to hold, no
I'll never let you gain control, no, no...
