

# Crystal Blue

Estradasphere

All that I wanna do is watch the sunset with you  
All that I wanna do is watch the sunset with you

Baby you know it's true  
Looking in your eyes and all I see is crystal blue

All that I wanna do is watch the sunset with you  
All that I wanna do is watch the sunset with you

Baby you know it's true  
Looking in your eyes and all I see is crystal blue  
You know it's true

Yeah, yeah, yeah

Baby you know it's true  
Looking in your eyes and all I see is crystal blue

All that I wanna do is watch the sunset with you  
All that I wanna do is watch the sunset with you

Baby you know it's true  
Looking in your eyes and all I see is crystal blue  
You know it's true

All that I wanna do is watch the sunset with you  
All that I wanna do is watch the sunset with you

Baby you know it's true  
Looking in your eyes and all I see is crystal blue

Baby you know it's true  
Looking in your eyes and all I see is crystal blue
