

## Desert Moon

Eterna

You seem like hot wind  
Moving fast across  
The desert sand.  
I know my is over!!

Please, hold me tight!!  
I'll be afraid in the morning...  
You better watch out  
For the vultures in the sky!!

The valley storm will let you down...  
The dragon's gonna beat you  
To the ground!!  
The manacing time will prey  
On your mind...  
The evil is flowing in the air!!

Everybody wanna live to fly high.  
Everybody wanna hold the moonlight.  
I'll try to change your heart  
To see myself falling...  
Everybody wanna live to fly high  
And it could be easy prey for the flies!!  
I'll try to change your heart  
To see myself falling!!

I look at you...  
The strongest ray of light  
Is inside of you!!  
You need to stop bleeding!!

You're living inside and outside...  
Be alive in the morning!!  
You better watch out  
For the vultures in the sky!!

The valley...  
Everybody...

The valley...  
Everybody...  
...I'm dying, I'm living, I'm falling.  
I'm bleeding...  
...to see myself falling...  
to see myself dying...  
to see myself rising!!
