

## Hard Life

Eterna

I Wake up early to work.  
To have a better life  
I'm proud to do my part  
For a better world

Running against time  
In this big city  
I want to take place  
I know that it's difficult  
To survive everyday  
But if I can, so can you

Hard Life  
These Days  
People only think about themselves  
Hard Life  
These Days  
The best that I can do in this world

Arriving late at my house  
That city drains me  
I see my children's pride  
That is my reason to fight
