

Holy Spirit

Eterna

Holy Spirit I trust you
Take me with you
You're forever inside me

It's the gift
That God provides me
Send me angels
For this battle that begins

Flying as a bird in the sky
It's just the sensations of grace

It's not a dream
It's the gift of the Holy Spirit
I can't believe
This dream is true

Holy Spirit you have the key
Take me with you
To become purified

I believe
That God provides it
Send me angels
To be free in the sky
