

# I Believe In Love

Eterna

You arrived in my life as the light  
Illuminates the darkness  
In a past of nightmares  
At the end of a tunnel I see your light

Living a new emotion  
If you believe in dreams  
With you I can get it  
For everything you have a way

I believe in love  
For all eternity  
I need you  
I know you love me  
I need you now

I open my passionate eyes  
To look at my love for the rest of my life  
And never ignore my destiny anymore  
Announcing days of prosperity

Living a new emotion  
If you believe in dreams  
With you I can get it  
For everything you have a way

I believe in love  
For all eternity  
I need you  
I know you love me  
I need you now

I live my new world  
Where nature makes me feel good  
For all my life
