

Power For The Fools

Eterna

Look at me
When I need the most
Life will have changed
To my King one day

Lord of life
My dreams are everything
When He looks at his children
The mercy will come

Destruction power arrives to the people
And they won't have mercy

The power for the fools
It's not a gift
People will pay
With their ignorance
And the foolish man
Will pay with eternity
The judgment of the evil is coming

The blood of the dead
Remains on the street
Injustices of A tyranny
To catch the fools

Storms of tears
Screams of liberty
Translating the agony
Of the innocent people
