

## Time Out of Mind

### Eternal Legacy

In a life far before human existence  
The essence of earth lies in the oceans of emptiness...:  
Great mountains cover the terrain

Celestial beasts which rule the sky  
Blaze fire through the bitter air  
They soar upon the heavens far above  
With a mind of their own  
Not one... they spare

In the void  
Time out of mind  
Visions of the past are reality  
Closer to what the future brings

Another life form exists  
A strange yet clever creation  
They roam the land  
To free from all they graze the sand  
Now the earth is broken in two...  
Domination, and desperation  
Together they both live in a cell...

In a world of good and evil  
A place that holds humankind  
Upon the path... through fire and water  
There's something that's about to appear

Reptiles...search the plain for life  
Dirty and foolish  
A feast of prey whom live in this wasteland  
They walk the earth and roam the land  
With a mind of their own, not one...

In the void  
Time out of mind  
Visions of the past are realty  
Closer to what the future brings
