

# Wicked Glory

## Eternal Legacy

Poisoned by the savage that lives inside my mind  
I fall asleep and begin to drift away

These voices I hear  
But still do not fear  
This power grips my sanity

I've begun to see  
And feel the truth  
The answer comes to me

Feel the wicked glory  
I have lived to watch the demons awake  
Genocide through evil eyes  
Feel the wicked glory  
Soon my quest will end and then I kill  
I will descend to hell

The ship is lost, lost within a darkened maze  
A crescent moon lights the way through this moor

Feel the wicked glory  
I have lived to watch the demons awake  
Genocide through evil eyes  
Feel the wicked glory  
Soon my quest will end and then I kill  
I will descend to hell

A meaning so clear I've never felt this way before  
Like I climbed the highest mountain  
For the answers of life

Feel the wicked glory  
I have lived to watch the demons awake  
Genocide through evil eyes  
Feel the wicked glory  
Soon my quest will end and then I kill  
I will descend to hell

These voices I hear  
But still do not fear  
This power grips my sanity

I've begun to see  
And feel the truth  
The answer comes to me
