

## Into My Own Hands

Eternal Reign

A darkened room, prayers go out like silent cries  
I'm asking for truth, all that's offered are lies  
Demons haunting my soul, laughing at me  
I'm down in a hole, it's no desperate dream,  
Can't break this spell, can't find the key

Screaming in the dark, sighing in the night  
I'm begging for redemption  
What life's all about  
People all around me they keep on telling  
You gotta crawl before you walk  
You gotta cry before you talk  
The wheels of time keep on rollin'  
No magic mirror will erase  
The lines of life carved deep in my face

I opened the door step out in the drivin' rain  
Hear footsteps close behind me  
Into darkness I try to carry on  
All of a sudden somebody called out my name

I'm crying out for angels  
The ones that struck me down  
Left me lying in the rain  
Left me alone in pain  
I'm swimmin' 'gainst the tide  
Life's river gonna drown me  
Gotta sail on stormy waters  
'til my soul will find it's peace

My tortured soul in endless time  
I'm ready to take a chance  
At the crossroad I'll make my stand  
Life's in my own hands

I'm crying out for angels...

Take my chance - take this life - make my stand
