

# Isolation

## Eternal Reign

Turn on the TV and turn off your mind  
Kill your own thoughts... be one of the brainwashed kind  
Opinion's not your own... take a look at your empty brain  
It's thrown away and flushed right down the drain

Open your eyes and see  
Unchain your thoughts... set your mind free

Get your daily dose of eMpTy V  
It's a growing trend... an epidemic I see  
In your own world... virtual reality  
(There's) No innovation just boring monotony

In cyberspace you've been caught  
Just start to think instead of being taught

[Chorus:]  
Using media with infatuation  
It's the breakdown of communication  
(Realize) You put yourself in isolation  
[Repeat 2 times]

[Solo]

Don't you know you build your prison...  
Every day... brick by brick  
You're eating their words and you don't feel,  
That they make you sick  
The big machines take care of you until the fashion fades  
The big machines take control of you  
Until you kill yourself

Open your eyes and see  
Unchain your thoughts...  
Unchain your thoughts and then set your mind free
